REPORT

PREVIOUS CENSUS ENUMERATIONS.

The first organised Census of Aden was taken in 1881 whereas the enumerations taken previous to 1881 were only attempts to take a Census and the figures were extremely doubtful. The figures from 1881 inclusive up to the year 1931 are shown in Imperial Table No. II. The Census of the 26th February 1931 is the eighth Census. A general idea of the results of the last Census will be found in paragraph 8 hereafter.

DETAILS AND GENERAL PROCEDURE OF PRESENT ENUMERATION.

2. The Chairman of the Aden Settlement was appointed as the Officer in Charge Census Operations and commenced work in the beginning of June 1930; Mr. W. H. B. Wight, who was Acting as Chairman, was the Officer in Charge Census Operations until 20th October 1930, when Lieutenant Colonel D. S. Johnston, R.E., took over charge. In the beginning of the Census Operations a house to house visit was made to ensure that the numbering was in order. The numbers of the houses were actually taken from the Assessment Register for each section. The general Village Register was then prepared and a complete list of the various divisions of Aden and its dependencies was shown therein. In it was also shown the names of Enumerators, Supervisors and Charge Superintendents. All the sections of Aden and its dependencies were divided into blocks, 50 houses on the average going to a block in the Crater, Maalla and Tawahi Divisions and 100 houses on the average going to a block in Shaikh Othman. The blocks were grouped into Circles and the circles into Charges. Their numbers and the manner in which they were divided are shown below :—

Crater—Circle No. 1—one supervisor—sections A, C & E—No. of Enumerators 22.

Crater—Circle No. 1—one supervisor—sections B, D & F—No. of Enumerators 24.

Maalla—Circle No. 1—one supervisor—section Maalla—8 Enumerators.

Tawahi and Steamer Point—Circle No. 1—one supervisor—sections Tawahi and Steamer Point—12 Enumerators.

Military Limits—Circles Nos. 1, 2 & 3—No. of supervisors 3—Enumerators 13.

Port Limits—Circles Nos. A, B, C & D—three supervisors—No. of Enumerators 13.

Perim—Circles Nos. 1 & 2—one supervisor—No. of Enumerators 6.

Shaikh Othman—Circle No. 1—One supervisor—Shaikh Othman—28 Enumerators.

One Charge Superintendent was appointed to supervise the Census Operations of each of the following Divisions :—

Crater	Charges A & B
Maalla, Tawahi and Steamer Point	Charge C
Shaikh Othman	" D
Military	" E
Port Limits	" F
Perim	" G

Special steps were taken for the enumeration of the Police, Jail Convicts, and Hospital patients by the Heads of those Departments. Special steps were also taken for the enumeration of the entire houseless population of the Crater, Maalla, Tawahi and Shaikh Othman Divisions. The numbers of Charges, Circles and Blocks are shown below :—

Charges	7
Circles	14
Blocks	126

All the charge Superintendents, Supervisors and Enumerators were engaged from Government and Local Fund Offices. One paid man was engaged to do the Office work. All supervisors and enumerators were shown the necessary details of their work. As the schedules were filled in, they were checked. The only exception was in the case of the enumeration of the houseless people and of the Port

population, which took place on the final night of the Census. No dislocation of Census work was caused owing to the unavoidable absence of enumerators, on the final night, as there were sufficient enumerators on reserve. The date of the final Census did not coincide with any holiday. All enumerators went out as soon as it was dark to check the final enumeration. New comers and newly born children were added to the list and the names of persons who were absent on the night of the 26th February 1931 were struck off the list. The next morning, all enumerators, supervisors and charge superintendents met together. The total of blocks were checked by the enumerators and supervisors. All Census Officers worked willingly and the totals were telegraphed to the Census Commissioner at Simla and to the Provincial Superintendent at Poona on the 27th February 1931, i.e. on the day after the Census night. Special care was taken so that the Provisional totals showing the number of occupied houses, males, females and total population should be as accurate as possible and the final recorded result only varied from the provisional totals as shown below :—

PROVISIONAL TOTALS.

Number of occupied houses	Males	Females
6,170	31,657	19,152

FINAL RECORDED RESULTS.

Number of occupied houses	Males	Females
6,128	32,345	19,133

The increase in the number of males was due to the fact that a second and further enumeration of the Shipping from the 26th February 1931 to 15th March 1931 of the Ports of Aden and Perim was taken. The final recorded results as regards the number of occupied houses and females show a variation of .7 per cent. and .1 per cent. only. The total number of Census Officers employed was 210 or .4 per cent. of the finally recorded population. Owing to the large number of houseless people in Aden, 58 Census Officers were employed in enumerating them on the night of the final Census. 35 clerks were kept as reserve men and 19 Interpreters were employed to assist the enumerators when the houseless people were enumerated.

STATISTICS DECIDED ON.

3. Information regarding Aden is printed in the form of a separate volume. After correspondence with the Provincial Superintendent of Census Operations, Poona, it has been decided to print the following tables :—

Imperial Tables Nos. I, II, III, VI, VII, IX, X, XIII, XV, Part I, XVI, XIX and XX.

In addition to the above, Special Tables Nos. 1, 2, 3, Register A and the Summary of Aden Settlement Census of 1931 have also been prepared and printed.

TABULATION OF RESULTS.

4. An Abstraction Office was opened on the 23rd March 1931, and three temporary whole-time clerks were engaged in copying, sorting and preparing the Census Tables. Four half-time checkers, one half-time supervisor and one half-time Deputy Superintendent were appointed to check and supervise the Census Abstraction and Tabulation Work. The above arrangements were sanctioned by Government in their Resolution No. 6804 III-dated the 21st April 1931, General Department. Only one change was made in the personnel of the checkers. There was practically no change from the procedure of 1921. The first thing done was to copy out all particulars regarding Abstraction on to a slip 2"×4½". Different coloured slips were used for different religions. Civil condition and Sex were shown by symbols of different shapes. The rest of the details such as age, caste, occupation, birth-place, language, literacy, knowledge of English and infirmities had to be written up in pencil. The copying and checking was completed by the end of June 1931. Sorting was then commenced. Pigeon-holes were provided and slips were arranged therein in accordance with the details required for each table. Bundles of a hundred were tied up in many cases and the requisite figures were inserted on

Sorters' Tickets which were printed locally. A good and continuous check was exercised and the sorters could not conceal or destroy any slips owing to the fact that the totals of all sections, blocks, circles and charges were always checked with the totals of Register A. This Register is the most important of all the Tables and mistakes were at once detected. Nothing extraordinary took place when the sorting, preparation and checking of Tables was in progress. All this work was finished by the end of October 1931.

COST.

5. The cost of the present Census has been Rs. 6,133 as compared with Rs. 4,718 in that of 1921. This cost is shared in equal proportions between Government and the Aden Settlement Fund. The increase is due partly to the cost of printing and partly to the increased cost of Travelling Allowances.

SUGGESTIONS FOR THE NEXT CENSUS.

6. The following suggestions may be of use to the Officer who may be placed in charge of the next Census Operations :—

Preliminary and Final Enumeration.

The general arrangements should be more or less on the same lines as the present Census. The work should commence early in June and all necessary details as for example, the numbering of houses should be completed in August or September at the latest. The personnel of the Census and other details should be settled before January so as to be ready for the Census to be taken in February or March of the next year. Care should be taken to employ as many men as possible who have worked in the present Census who may be in Aden at that time. The present supervisors and enumerators should be employed if they are still available.

Census Abstraction—Copyists and Sorters.

In the present Census three copyists and sorters were employed and it is recommended that they should again be employed if their services are available at the time of the next Census. They should be whole-time men.

Checkers.

In the present as well as in the previous Census, men in the permanent employ of the Aden Settlement were working half-time only. This work requires careful supervision and was done under some difficulty.

Supervisor.

The Officer should be a full-time man and if this suggestion is adopted in the future, a lot of time will be saved and the Census Abstraction Work will be finished soon. He should carry on all correspondence, keep charge of all records and supervise the working of the checkers as soon as the Census Abstraction Tables are checked.

Deputy Superintendent of Census.

This Officer should also be a full-time Officer and should devote his whole time to Census Work from the beginning of June up to the date when the Census Abstraction Work is completed.

ACKNOWLEDGMENT.

7. My thanks are due to the whole population of Aden both Civil and Military and to the Police for their hearty co-operation and help during the time of the Census. No trouble of any kind arose and this is no doubt due to the tact exercised by the enumerators in paying their house to house visits. Among the actual workers the name of Khan Saheb E. R. Kanga, Deputy Superintendent of Census for Aden, should be mentioned. His experience gained in the two previous Censuses and his whole-hearted devotion to duty in the present one were invaluable. He was entirely responsible to me for the whole of the Census Work from the beginning to the end. The present Census went off very smoothly. The Census work was done very efficiently and this was entirely due to his hard work and excellent supervision.

The following gentlemen also rendered material help and great praise is due to them for their co-operation in the actual enumeration :—

1. Mr. Fred B. Taylor .. Superintendent Charge C.
2. K. B. Pestonjee B. Mehta .. " " A & B.
3. Mr. Shapurji Sorabji .. Supervisor " A.
4. Mr. Saeed Moosa .. " " B.
5. Mr. F. M. Mehta .. " " C—Maalla.
6. Mr. G. N. Sopariwalla .. " " C—Tawahi.
7. Mr. S. Ahmed Hydershaw .. " " D—Shaikh Othman.
8. Mr. Ali Saeed Habashi .. Census Clerk and General Assistant.
9. Mr. Abdul Khalek Ismail .. Enumerator.
10. Mr. Ali Murshed .. " "
11. Mr. Hakim Mirajuddin .. " "
12. Mr. Abdul Gafoor Mohamed Amin .. " "

Amongst those who worked in the Census Abstraction Office, the following gentlemen worked very hard and satisfactorily :—

1. Mr. Abdul Rehman Nowroji.
2. Mr. Shapurji Sorabji.
3. Mr. Saeed Moosa.
4. Mr. Ali Saeed Habashi.
5. Mr. Syed Anwar Ali.
6. Mr. Saeed Salem Ba Madhaf.
7. Mr. Mohamed Darwish.

Lastly I wish especially to mention the Military, the Aden Police and the Port Authorities ; it was owing to the tactful help given by the Military and the Aden Police that there was no disturbance of any kind.

GENERAL RESULTS.

8. The population of Aden is concentrated in well-defined and separate areas. Additional Tables are therefore prepared which will be found immediately after this report and before the Standard Tables. Special Table I gives the results of the present and past Censuses in some details. Special Tables Nos. II and III are also interesting from a statistical point of view. Special Table No. IV which is printed for the first time gives to the reader a very comprehensive idea of the population of the various Divisions of Aden as well as of the Sections of the Divisions. In this Special Table, the numbers of the principal communities of Aden are also shown but the population of the Ports of Aden and Perim is not shown for obvious reasons. From Special Table I, it will be seen that the population counted in 1931 amounted to 51,478 made up as follows :—

Place.	Males.	Females.	Total.	Ratio of females to males ; 1 to
Crater	12,547	8,836	21,383	1·4
Maalla	2,191	1,414	3,665	1·5
Tawahi and St. Point	5,202	2,300	7,502	2·3
Port	2,740	136	2,876	20
Total in civil limits in Fortress	22,680	12,686	35,366	1·8
Shaikh Othman and hamlets	6,712	5,455	12,167	1·2
Total in civil limits in Aden Settlement	29,392	18,141	47,533	1·6
Military	1,527	454	1,981	3·3
Total in Fortress	24,207	13,140	37,347	1·8
Total in Settlement	30,919	18,595	49,514	1·7
Perim	1,426	538	1,964	2·7
Grand Total	32,345	19,133	51,478	1·7

The high percentage of males to females even among the Civil population is noticeable and the reason is that many people who come to work in Aden leave their families either in the Hinterland or in Somaliland or wherever their homes may be. It is satisfactory to notice from Special Table No. 3 that the number of the "Houseless" population is steadily decreasing. These people are immigrant coolies, labourers and beggars. A remarkable feature is the great decrease of the houseless population in Tawahi and Hedjuff from 1,796 to 518.

Among the Civil population in the whole of Aden there was an increase of 2,648 as compared with the population of 1921; the figures being 47,533 in 1931 and 44,885 in 1921. The main increase in the population was at Crater, Maalla, Port, Shaikh Othman, Imad, Hiswa and Little Aden whereas Tawahi showed a slight decrease in the population. One noticeable feature is the great decrease in the population of the Cantonment and Military; the figures being 4,182 in 1911, 8,147 in 1921 and only 1,981 in 1931. The decrease is due to the reduction of troops in Aden and Cantonment in 1931. 1921 was rather an exceptional period due to the War and the reduction from 1911 is much less.

D. S. JOHNSTON,
Chairman, Aden Settlement,
In Charge Census Operations, Aden.

27th February 1932.

IMPERIAL TABLE IX

INFIRMITY.

A person suffering from two or more infirmities has been shown separately under each infirmity, and therefore, in both parts of this table the figures in columns 2 to 4 represent the number of cases and not the actual number of persons.

PART I—Distribution by Age.
